About Check-Cap

Check-Cap is a clinical stage medical diagnostics company developing the first non-invasive system for preparation-free imaging of the colon to identify precancerous polyps and cancers. The Company is developing an ingestible capsule that utilizes proprietary, ultra-low-energy X-ray-based technology to safely generate high-resolution, 3-dimensional imagery of the interior of the colon. Without requiring traditional bowel cleansing or diet and activity modifications, Check-Cap's system is designed to increase patient acceptance and adherence to colorectal cancer screening recommendations. The Check-Cap system is currently not cleared for marketing in any jurisdiction.
